

IDEALFIBER

Environmentally friendly mulch material

“IDEALFIBER” is made from fresh cedar bark, which is hard-to-burn, decay-resistant, equipped with breathability, water reservation and bactericidal Action.

IDEALFIBER makes an easy way to get a beautiful flower bed.

Produced from cedars grown on beautiful mountains in Japan.

Safe and Beautiful Mulching

- Prevent soil from drying up.
- Protect plants from bad bacteria.
- Keeps soil soft and moist.
- Reduce weeds
- Ease temperature change in ground.

Creates an environment where children can play safely.
